

APC800CW - WATER BASED CLEAR CONCRETE SEALER

A single component water based acrylic self-cross linking coating, designed to penetrate concrete surfaces and adhere to produce a clear gloss coating, providing a hard wearing surface.

Residential driveways, warehouses and light industrial buildings will benefit from applying Water Based Clear Sealer, suitable for new and older concrete.

Water Based Clear Sealer is solvent-free and does not have the flammable hazards of conventional solvent based products.

All Purpose Coatings recommends applying 2 coats of Water Based Clear Sealer for optimum effect, but the application must not be too thick, as excessive build up may cause the coating to appear milky when subjected to ponding. This effect will disappear when the coating dries completely.

Advantages of using Water Based Clear Concrete Sealer:

- Suitable for Interior and Exterior coatings.
- Water based, easy to apply.
- No solvent fumes or flammable hazards.
- Can be sprayed, brushed or applied by roller.
- Fast drying.
- Hard wearing surface resistant to abrasion.
- UV resistant.

Coverage is between 6 - 8 square meters per litre depending on the type of application.

IMPORTANT NOTICE:

Read the MSDS and TDS carefully prior to use as application or performance data may change from time to time. In emergency, contact the Poisons Information Centre (phone 13 11 26 within Australia) or a doctor for advice.

PRODUCT DISCLAIMER:

This Technical Data Sheet (TDS) summarises to the best of our knowledge the product, including how to use and apply the product based on the information available at the time. You should read this TDS carefully and consider the information in the context of how you will apply the product, including if it is being used in conjunction with any other products, the type of surfaces and the manner in which the product will be applied. Our responsibility for products sold is subject to our standard terms and conditions of sale. All Purpose Coatings does not accept any liability either directly or indirectly for any losses suffered that arises from the use or application of the product whether or not in accordance with any advice, specification, recommendation or information given by it.
